Iwata Deluxe Airbrush Set PRODUCT CODE: IW200

Product Description: The multi-purpose, high-paint-flow, high-detail airbrushes of the Eclipse Series are commonly used to spray premixed or heavier paints. Well suited for uses demanding precise control when applying moderate-to-large amounts of paint to a variety of surfaces and to various-sized areas.

Kit Includes: Iwata Smart Jet auto shut-off compressor, Iwata Eclipse CS dual-action airbrush, 2 instructional DVDs, Artool Freehand Template (FH-2), 10 bottles of Medea Com-Art Colors, 8 oz. bottle of Medea Airbrush Cleaner

Iwata Eclipse BCS Airbrush PRODUCT CODE: ECL2001

Product Description: The Eclipse BCS is a multi-purpose, high detail airbrush designed to spray pre-mixed or heavy paints. Best for uses demanding precise control where moderate to large amounts of paint are being applied.

The Eclipse BCS is a dual-action, internal-mix, bottom feed airbrush designed for use by fine artists, textile painters, wall muralists, sign painters, automotive muralists, students, and hobbyists.

Eclipse airbrushes are so versatile that one size needle and cone-shaped fluid tip is all that is required. These airbrushes can spray fine lines to large backgrounds using thin to heavy paints. Even stippling patterns can be achieved by simply removing the air cap. No need to change heads, one head does it all. All major brands of airbrush jars and jar adaptors are compatible with Eclipse airbrushes, so there is no need to replace those dozens of jars you already own.

TIP SIZE: 0.5mm

ATOMIZATION: 7

- Bottom-feed airbrush features a 0.5-mm needle and nozzle combination
- Sets the industry standard for high-performing, general-purpose, high-paint-flow airbrushes
- Versatile, reliable performance - this airbrush does it all

Iwata Eclipse CS Airbrush Set Staff Pick! PRODUCT CODE: ECL4501

Product Description: HP-CS gravity feed airbrush set with 10 ft braided air hose, 0.35 mm needle & nozzle combination commonly used to spray premixed or heavier paints. It is well suited for uses demanding precise control of spray when applying moderate-to-large amounts of paint to a variety of surfaces and to various-sized areas.

Gravity-feed airbrush features a unique 0.35-mm needle and nozzle combination for fine-detail spraying, but with high-paint-flow capacity. Generous 1/3 oz. sized cup is designed with a new funnel shape, which makes for easy clean up and more efficient paint flow. Automotive artists, fine artists and students will appreciate how well the Eclipse CS sprays heavier acrylics and Medea Textile Colors, while maintaining high-detail spray characteristics.

Iwata Eclipse BS Airbrush PRODUCT CODE: ECLBS

Product Description: The Eclipse BS is a multi-purpose, high detail airbrush designed to spray pre-mixed or heavy paints and well suited for uses demanding precise control where moderate to large amounts of paint are being applied.

The Eclipse is machined with the finest grade materials for the closest tolerances. The self-centering fluid tip and hardened stainless steel needle seat together precisely for a secure, long lasting fit. Two internal bushing sites behind the trigger allow the needle to stay centered throughout the airbrush, resulting in perfect alignment of internal working parts and long-standing durability. A tough, triple chrome-plated exterior is impervious to most solvents.

The new funnel design of the generous 1/16 oz. cup makes clean-up easier and helps prevent paint wastage. Fine artists and students alike will appreciate how well the Eclipse BS sprays heavier acrylics and Body Art paints while maintaining very fine spray characteristics.

- Gravity-feed airbrush features a 0.35-mm needle and nozzle combination
- convenient 1/16 oz. sized cup
- The improved funnel design of the cup makes for easy clean up and more efficient paint flow
- Ideal for nail and beauty applications

Iwata HP-BH Hi-Line Airbrush PRODUCT CODE: SHPBH

Product Description: The HP-BH offers ultimate air control directly at the nozzle with Iwata's Micro Air Control (MAC) Valve Technology. Designed for artists who demand extreme control of detailed spraying, this brush uses larger threads on the nozzle which offers a more secure hold and ensures better centering of the nozzle.

The HP-BH is made with Teflon™ needle packing, a dual-purpose cut-away, pre-set handle and one-piece auxiliary lever/needle chucking, and stronger nozzle threads.

A .2mm nozzle has a 1/16 oz (1.8ml) cup for holding larger quantities paint. The gravity feed cup features a smooth inside taper which provides quick and easy clean up.

Iwata HP-BC Plus Airbrush PRODUCT CODE: SHPBCPLUS

Product Description: The HP-BC Plus bottom feed airbrush is renowned as the professional's workhorse. This popular High Performance Series brush has been pumped up with inspired new features:

- Dual-purpose, cutaway and pre-set handle for easy clean up and precise control of paint flow
- Teflon™ needle packing for automotive or other solvent-based paints
- Larger threads on the nozzle offer a more secure fit and better centering of the nozzle
- Redesigned tapered gravity-feed cups ensure easy clean up and more efficient paint flow
- Single-piece auxiliary lever/needle-chucking guide provides easy assembly
- With its .3mm nozzle and needle combination, the HP-BC Plus offers high precision, detailed spraying from a hairline to a 1" pattern.
